A N N O U N C E S

THE PEN THAT

# THE *New* EVERSHARP

DIFFERENT! DRAMATIC! DYNAMIC!

EVERSHARP advertising introduces the most challenging pictures ever employed in fountain pen advertising. They sound a new note—pack the same punch and originality found in the new pen. And nothing less could hope to forcefully tell the world about the remarkable development of a leakproof pen.

No matter how you carry this new EVERSHARP—upside down—on its side—in any position—IT WON'T LEAK! It can't flood and stain your fingers—purse—or clothing.

When you screw on the cap a little valve, the safety ink shut-off, automatically locks the ink in the pen barrel.

What's more it's the only pen that gives you Tailored Writing. And this makes it the safest of gift pens.

#### POINTS

All sizes of EVERSHARP Adjustable Points on Deluxe pens are available in the following types:

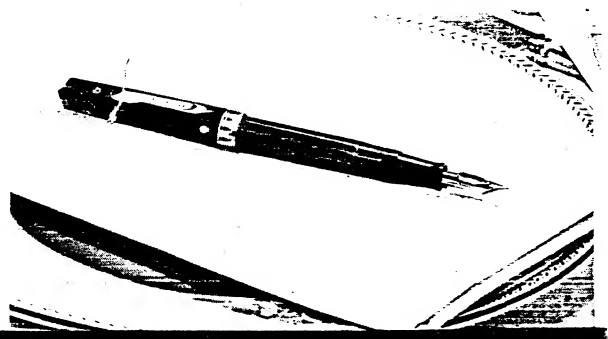

Pen 59—Pencil 19  
Pens and pencils in combination

With cap on—ink supply locked in by Safety Ink

By moving the little adjuster up or down the point you can "make-to-order" the ex-

# THE PEN THAT *can't leak* AND GIVES YOU TAILORED WRITING

for the user can always adjust the point to fit his individual writing pressure, stroke, and style.

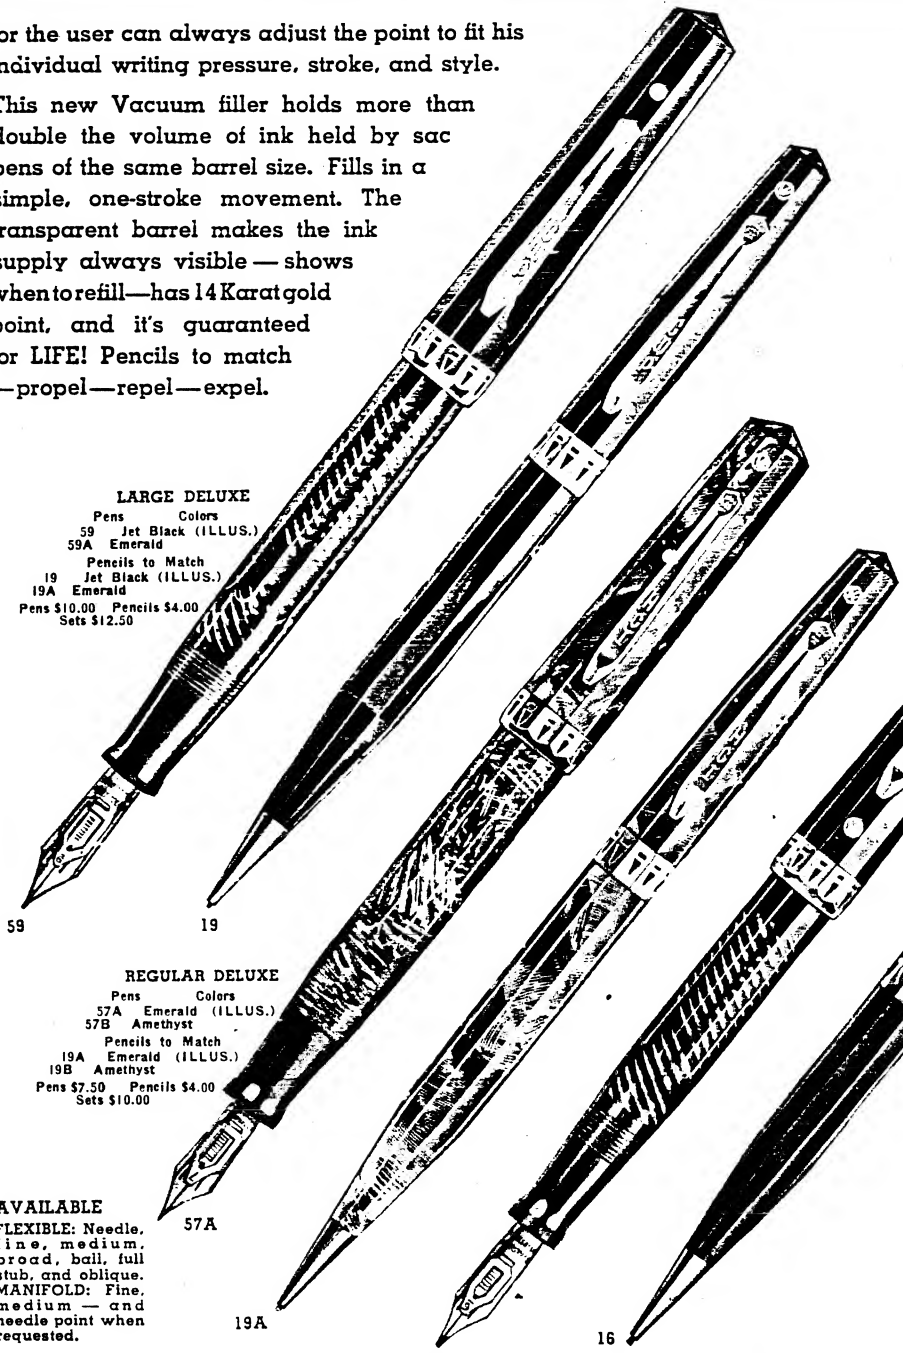

This new Vacuum filler holds more than double the volume of ink held by sac pens of the same barrel size. Fills in a simple, one-stroke movement. The transparent barrel makes the ink supply always visible—shows when to refill—has 14 Karat gold point, and it's guaranteed for LIFE! Pencils to match—propel—repel—expel.

## PICTURES SAY, "NO MORE INK STAINS"

Here's another picture of the unusual advertising illustrations which emphasize the *immaculateness* of the new *leak-proof* pen. The pictures themselves fairly shout, "No more ink stains on fingers—purse or clothing." And the copy's text, while featuring the Safety Ink Shut-off, also does a selling job on the other major points.

# EVERSHARP

## \$5 LEAKPROOF MODEL

Like our Deluxe models, this EVERSHARP is equipped with the new leakproof feature. In addition, it offers a perfected one-stroke filling mechanism, an ink capacity more than double that of sac pens, a 14 Karat interchangeable point, a visible ink supply, beautiful Doric shape, rich banding and new colors.

Matching pencil propels, repels, expels. Larger model with side clip — shorter model, thinner diameter, with top clip.

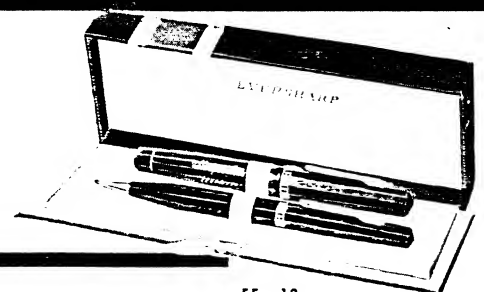

### REGULAR MODELS

# EVERSHARP

## \$3 ROUND VACUUM FILLER

These models introduce a new round barrel design. Fill and clean with one stroke. Have a visible ink supply. 14 Karat gold point. Hold more than twice as much ink as sac pens of the same size.

The handsome matching pencil, like its writing partner, SHOWS WHEN TO RE-FILL. A Red Spot Lead Gauge indicates the length of lead in the feed tube. Pencil propels—repels—expels.
